Subject: Re: Introductions

Thanks, Oleg. I was going to write the same.

Hi, Nick, pleasure to e-meet you. We should have two separate calls - one with TON Labs or the tech support (I am scheduling one with Zach already) and another one with Oleg-SDG.

Looking forward,

A.

Hey, Nick!

Thank you, Sham.

Nick, we have a group in Telegram with your colleagues inc. Zach Segal, Dalal Nemil and 18 other Coinbase team members.

Do you think we can consolidate efforts?

Best regards,
Oleg

Thanks Shyam!

Hi Oleg - nice to be connected with you. Would be great to jump on a call and discuss various avenues of possible collaboration in support of GRAM.

Let me know if you're free for a call sometime this week.

Best,
Nick

Nick, I also wanted to introduce you to Oleg at Gramvault. I believe Oleg's spoken to others there at Gramvault but I thought it might be useful for you both to connect

regards

Alexander, Nick

I wanted to introduce you. Nick is with Coinbase, who are looking to develop a custody and exchange solution for Grams, in which context they had some technical queries with regard to TON. I thought it might make sense for you to speak to discuss this and potentially other areas of mutual interest.
